Egyptians' Toes

There are
four different types of toes

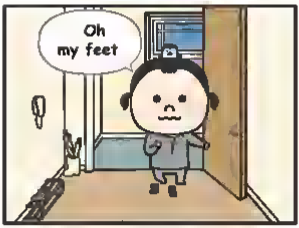
Frog

Egyptian

Roman

Greek

Which one is yours?
Mine are Egyptian which means
that the big toe is the longest toe.

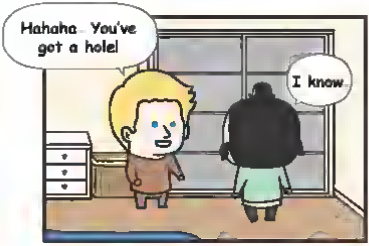


It doesn't matter
which type of feet you have.

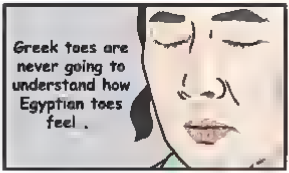
But I think Egyptian toes make holes in a sock very easily.

Especially in stockings.

Mev has different toe shape to me.

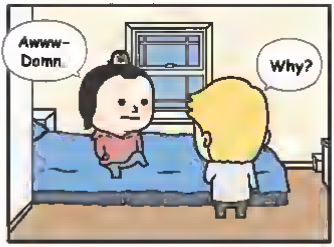


We can't understand others
when we are not in their shoes.

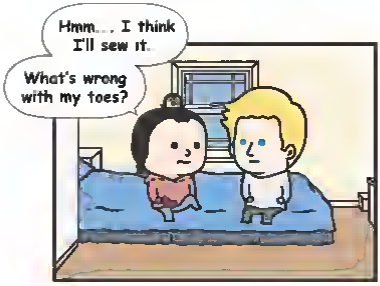


It tasted bitter.

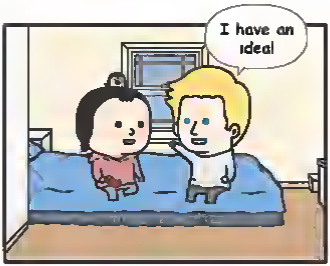
And then one day,
we came back home from a day out.

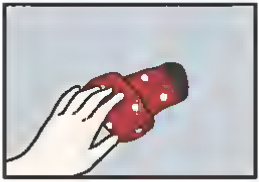


One of my fevourite socks got a hole.



I was upset, and Mev told me.





Therefore,
my shoe size became 270mm.
